

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Reclamation District 108 Slope Stability Flood System Repair Program (FSRP) Sites Project

Lead Agency: Reclamation District 108

Contact Name: Meegan Nagy

Email: mnagy@rd108.org Phone Number: 530-812-6269

Project Location: Two segments within the Colusa Basin Drainage Canal East Levee      Colusa County  
*City*      *County*

Project Description (Proposed actions, location, and/or consequences).

The Project is intended to repair two critical levee slip sites. The landside levee slopes in two locations have slipped causing deformation of the levee crowns and landside slopes. The Project is being performed to limit the potential risk of additional levee damage or failure. The Project proposes to conduct repairs along two segments of the Colusa Basin Drainage Canal East Levee: a 650-foot-long segment between Tule Road and White Road at Levee Mile 17.2 (Site A), and a 150-foot-long segment between Yolo County Line Road and White Road at Levee Mile 12.7 (Site B). The Project also proposes to use an optional spoils area for depositing excess excavated material (Spoils Area); this area is located in Yolo County between County Road 108 and State Route (SR) 45. The Project is composed of three separate sites that cumulatively total approximately 16.34 acres.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources Mitigation Measures: Special Status Plan Species, Northwestern Pond Turtle, Giant Garter Snake, Nesting Birds Preconstruction Survey, Swainson's Hawk Preconstruction Survey, Burrowing Owl Preconstruction Survey, Pallid Bat, Western Red Bat, Aquatic Resources, Great Blue Heron.  
Cultural Resources Mitigation Measures: Unanticipated or Post Review Discovery of Cultural Resources  
Geology and Soils Mitigation Measures: Discovery of Unanticipated Paleontology Resources  
Hazards and Hazardous Materials Mitigation Measures: Hazardous Materials Management  
Transportation Mitigation Measures: Construction Traffic Management Plan  
Tribal Cultural Resources Mitigation Measures: Cultural Awareness Training

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known controversy

Provide a list of the responsible or trustee agencies for the project.
