Present Land Use/Zoning/General Plan Designation:

Agriculture

Project Description: (please use a separate page if necessary)

The Project is intended to repair two critical levee slip sites. The landside levee slopes in two locations have slipped causing deformation of the levee crowns and landside slopes. The Project is being performed to limit the potential risk of additional levee damage or failure. The Project proposes to conduct repairs along two segments of the Colusa Basin Drainage Canal East Levee: a 650-foot-long segment between Tule Road and White Road at Levee Mile 17.2 (Site A), and a 150-foot-long segment between Yolo County Line Road and White Road at Levee Mile 12.7 (Site B). The Project also proposes to use an optional spoils area for depositing excess excavated material (Spoils Area); this area is located in Yolo County between County Road 108 and State Route (SR) 45. The Project is composed of three separate sites that cumulatively total approximately 16.34 acres.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
