

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

County

Project Description (Proposed actions, location, and/or consequences).

The Yuba City Aquifer Storage and Recovery Well System Project would include construction of an aquifer storage recovery (ASR) well at the existing City-owned water treatment plant (WTP). Construction of the proposed ASR well would allow for underground storage of excess treated surface water and for the recharge of the groundwater aquifer during low demand winter months. The water stored in the ASR well could be recovered as needed to meet short-term demands and supplement existing water supplies.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

BIO-1, Swainson's Hawk, White-tailed Kite, and Nesting Migratory Birds and Raptors (Less than significant impact with mitigation)
 CUL-1, Accidental Discovery of Cultural Resources (Less than significant impact with mitigation)
 CUL-2, Accidental Discovery of Human Remains (Less than significant impact with mitigation)
 HYD-1: Dewatering Activities in Excavations (Less than significant impact with mitigation)

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.
