Present Land Use/Zoning/General Plan Designation:Land Use: Public & Semi Public; Zoning: R-1: Low Density Residential**Project Description:** (please use a separate page if necessary)

The Yuba City Aquifer Storage and Recovery Well System Project would include construction of an aquifer storage recovery (ASR) well at the existing City-owned water treatment plant (WTP). Construction of the proposed ASR well would allow for underground storage of excess treated surface water and for the recharge of the groundwater aquifer during low demand winter months. The water stored in the ASR well could be recovered as needed to meet short-term demands and supplement existing water supplies.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
