Project Description (Proposed actions, location, and/or consequences).

The City of Oakland (City) is proposing to construct and operate a new municipal fuel station in the existing approximate 17 acre Municipal Service Center (MSC) at 7101 Edgewater Drive in Oakland, California. The MSC property is owned by the Port of Oakland and has been leased and operated by the City since 1968. The proposed fuel station would be constructed in the northwestern area of the MSC; it would replace an existing gasoline and diesel fuel station, consisting of two 20,000 gallon fuel underground storage tanks (USTs), approximately 450 feet to the southwest. The USTs associated with the existing fuel station are planned for removal as a separate project following installation of the new fuel station (as required by Senate Bill 4451).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

None anticipated. No mitigation measures proposed.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

No responsible or trustee agencies.
