MAGNUSSEN'S TOYOTA OF MOUNTAIN VIEW

PROJECT DESCRIPTION

December 2024

The project proposes to demolish the two existing structures and improvements on the parcels and to construct a new approximately 39,400 square foot automobile dealership with associated automobile service/repair shop and parts dealership for Toyota. The project also includes a Heritage Tree Removal Permit to remove 80 Heritage Trees, a Lot Line Adjustment to combine four lots, and a lot tie agreement.

The approximately 2.4-acre site is located on the south side of Old Middlefield Way between North Rengstorff Avenue and Independence Avenue in the CS (Commercial Service) zoning district. The site is currently occupied by commercial buildings, surface parking areas, and landscaping.

The proposed dealership would include an approximately 3,106 square foot showroom display area, approximately 11,442 square feet of sales and office space, approximately 4,491 square feet for the parts department, and an approximately 20,360 square feet for the service area. The site would be developed at a floor area ratio of approximately 0.38, consistent with the zoning designation.

The City of MV prepared a CEQA checklist analysis of the project with relevant technical studies and determined that the project qualified for a Categorical Exemption under CEQA in accordance with Section 15332 *Infill Exemption*. This document is available for review from the City of Mountain View upon request.
