Project Title: Central Basin Municipal Water District Proposition 1 Recycled Water Customer Conversion for Disadvantaged Communities Project

State Clearinghouse Number: Not yet assigned

Project Location: The project proposes seven areas in which recycled water pipeline segments would be installed in areas that are currently supported by potable water service.

Bellflower City Hall

Latitude/Longitude: 33.883663°, -118.122141°

The project is located at 16600 Civic Center Dr, Bellflower, CA 90706. Recycled water pipeline will be installed internally at this site. The project site is generally located within Section 27, Township 3 South, Range 12 West of the USGS 7.5 Minute Whittier, CA topographical quadrangle.

Maywood Academy High School

Latitude/Longitude: 33.982993°, -118.189599°

The project is located at 6125 Pine Ave, Maywood, CA 90270. New recycled water pipeline will connect to an existing pipeline within Randolph Street (south), and will travel along Randolph Street, bore under the Railroad at Randolph Street's intersection with Fishburn Avenue, will travel across Randolph Street (north) to connect to the Maywood Academy High School site. Recycled water pipeline will also be installed internally at this site. The project site is generally located within Section 24, Township 2 South, Range 13 West of the USGS 7.5 Minute South Gate, CA topographical quadrangle.

San Antonio Elementary School

Latitude/Longitude: 33.983802°, -118.212305°

The project is located at 6222 State St, Huntington Park, CA 90255. New recycled water pipeline will connect to an existing pipeline within Randolph Street (north), and will cross the median, as well as Randolph Street (south) to connect to San Antonio Middle School. Recycled water pipeline will also be installed internally at this site. The project site is generally located within Section 23, Township 2 South, Range 13 West of the USGS 7.5 Minute South Gate, CA topographical quadrangle.

Tanner Elementary School

Latitude/Longitude: 33.903196°, -118.171173°

The project is located at 7210 Rosecrans Ave, Paramount, CA 90723. New recycled water pipeline will connect to an existing pipeline that traverses the western boundary of Tanner Elementary School, and will connect to the site at its northwest corner. Recycled water pipeline will also be installed internally at this site. The project site is generally located within Section 18, Township 3 South, Range 12 West of the USGS 7.5 Minute South Gate, CA topographical quadrangle.

Tweedy Elementary School

Latitude/Longitude: 33.944324°, -118.181301°

The project is located at 9724 Pinehurst Ave, South Gate, CA 90280. New recycled water pipeline will connect to an existing pipeline within the median that separates east- and west-bound traffic along Atlantic Avenue and will cross the median, as well as Atlantic Avenue (north) to connect to Tweedy Elementary School. Recycled water pipeline will also be installed internally at this site. The project site is generally located within Section 6, Township 3 South, Range 12 West of the USGS 7.5 Minute South Gate, CA topographical quadrangle.

Bloomfield Park

Latitude/Longitude: 33.835240°, -118.079352°

The project is located at 21420 Pioneer Blvd, Lakewood, CA 90715. The new recycled water pipeline will connect to the park

within 215th Street at the park’s southwest corner. Recycled water pipeline will also be installed internally at this site. The project site is generally located within Section 7, Township 4 South, Range 11 West of the USGS 7.5 Minute Los Alamitos, CA topographical quadrangle.

Fedde Middle School

Latitude/Longitude: 33.834521°, -118.076976°

The project is located at 21409 Elaine Ave, Hawaiian Gardens, CA 90716. The new recycled water pipeline will connect to an existing pipeline within Norwalk Boulevard at the northwest corner of Palms Park (north of Fedde Middle School), and will travel south along Norwalk Boulevard to 214th Street, the new recycled water pipeline will travel west along 214th Street to Elaine Avenue, where the new recycled water pipeline will then travel south to 215th Street, at which the RW pipeline will travel west to the southwestern corner of Fedde Middle School. Recycled water pipeline will also be installed internally at this site. The project site is generally located within Section 7, Township 4 South, Range 11 West of the USGS 7.5 Minute Los Alamitos, CA topographical quadrangle.

Project Description: The proposed project involves the installation of new recycled water pipeline as extensions to the Distinct recycled water system within public rights-of-way and internally at the seven public sites that will be connected to the District’s new recycled water transmission system, as follows:

Site	City	Pipeline Length External (ft)	Pipeline Length Internal (ft)
1. Bellflower City Hall	Bellflower	0	175
2. Maywood Academy High School	Maywood	600	0
3. San Antonio Elementary School	Huntington Park	45	40
4. Tanner Elementary School	Paramount	20	500
5. Tweedy Elementary School	South Gate	50	80
6. Bloomfield Park	Lakewood	100	225
7. Fedde Middle School	Hawaiian Gardens	6,000	300

The recycled water pipeline will be installed beginning over a 6 month period beginning in 2025.

Finding: Central Basin Municipal Water District’s decision to implement this proposed project is a discretionary decision or “project” that requires evaluation under the California Environmental Quality Act (CEQA). Based on the information in the project Initial Study, the District has made a *preliminary* determination that a Mitigated Negative Declaration will be the appropriate environmental determination for this project to comply with CEQA.

Initial Study: Copies of the Initial Study can be reviewed at the District’s Website: <https://www.centralbasin.org/home>. The public review period for the Initial Study begins on December 31, 2024 and ends on January 30, 2025 (30-days).

Mitigation Measures: All mitigation measures identified in the Initial Study are summarized on beginning on Page 135 of the Initial Study and are proposed for adoption as conditions of the project. These measures will be implemented through a mitigation monitoring and reporting program if the Mitigated Negative Declaration is adopted.
