Project Title: Closure of All Cities Landfill (Formerly West Winton Ave Landfill) Flood Control District, Zone 2, Hayward, Alameda County, California.

Project Location - Specific: End of West Winton Ave by the Bay, Hayward, Alameda County.

Project Location – City: Hayward **Project Location - County:** Alameda

Description of, Nature, and Purpose of Project: The former West Winton Landfill (aka: All Cities Landfill) project site is 165.89 acres and owned and maintained by the Alameda County Flood Control and Water Conservation District (District). The Landfill is located in Flood Control District, Zone 2 at the western end of West Winton Ave, in City of Hayward. In July of 1987, the Regional Water Quality Control Board (RWQCB) in accordance to Section 13304 of the California Water Code, issued a Cleanup and Abatement Order # 87-077. The Cleanup and Abatement requires a closure plan and a soil acceptance plan (SAP) to guide the capping operations. The Closure and SAP plans have already been submitted to the RWQCB. As part of the capping process, the District is required to provide drainage to the landfill, without water ponding on the surface of the landfill site. To accomplish this, the District closure plan requires grading of the capping soil material to allow for drainage of rainwater away from the landfill and through an underground 24” diameter drainage pipe, to a new proposed outfall at the adjacent District channel (Zone 4, Line A). All work will be performed on Flood Control District properties and easements. The purpose of the project is to comply with the RWQCB Cleanup and Abatement Order #87-077.
