**Project Title:** 641047\_SPR\_OG

**Project Applicant:** Sentinel Peak Resources California LLC (S2641)

**Project Location:** Kern, Cymric; Section 6/T.30S/R.22E/B&M: MD; 35.35361481,  
-119.64779663

**Project Description:** SPR proposes to rework existing wells located in the Cymric Oilfield. The wells will be completed in the same reservoir as the original wellbore. The completion design will be the same as the original wellbore.

The project will include:

- Plugging back the existing wellbore with cement
- Sidetracking to a similar depth as the existing wellbore
- Completing the sidetracked wellbore in the same reservoir as the original wellbore

The proposed project consists of the California Department of Conservation, Geologic Energy Management Division (CalGEM) approving 1 permit for Sentinel Peak Resources California LLC to perform sidetrack work on the well listed below, in the Cymric Oil Field.

API #	Well Name
0402925424	McKittrick Unit 1-33

**Exempt Status:** As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

Exemption Type	Statute (PRC)	Regulation (14 CCR)	
<input type="checkbox"/> <b>Statutory Exemption:</b>			
<input type="checkbox"/> Ongoing Project ( <i>pre-CEQA approval on April 5, 1973</i> )	21169	15261 (b)

<b>CEQA Exceptions to the Exemptions (14 CCR § 15300.2):</b> where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.			

**Reasons Why Project is Exempt:** The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

**Class 1, Existing Facilities (14 CCR §§ 15301, 1684.1):** The "Class 1" (14 CCR § 15301) exemption is applicable per the CEQA Guidelines and CalGEM's regulations (14 CCR § 1684.1) because the proposed work consists of repair, maintenance, or minor alteration of an existing previously permitted well involving no expansion of former use. The Class includes, but is not limited to: remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells. The well would maintain its existing well type and the use of the well would remain the same as before.

**Class 2, Replacement or Reconstruction (14 CCR § 15302):** Class 2 applies because it consists of "replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced."
