Project Description: (please use a separate page if necessary)

Solano Irrigation District (District) proposes to construct a new groundwater well and conveyance pipeline in unincorporated Solano County, California. The District owns and operates an existing public water system located in unincorporated Solano County north of the City of Vacaville, known as the Quail Canyon PWS (#CA4810012). The Quail Canyon PWS is one of the District's small rural public drinking water systems, and has a deteriorating well as its single source of water. A new well is necessary to reduce drought impacts of a failing well and increase fire resiliency within the service area.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
