¹With a hazard management permit, a dead western Joshua tree that is detached or a detached limb may be removed by the property owner. Trimming or removal of attached western Joshua trees must be completed by a desert native plant specialist. Please note that CDFW is only able to authorize trimming of living western Joshua trees for hazard management purposes, not removal.

Section 4. Photographs (Required)

Please attach photographs of the western Joshua tree(s) to be trimmed or removed showing that the condition of each western Joshua tree meets one or more of the conditions listed in Section 3, above. Photographs should be taken from an adequate distance and angle(s) to allow CDFW to determine the condition of the trees and their location relative to any existing structure(s).

Section 5. Additional Information (Optional)

Provide any additional information or justification here:
Rotten Tree has Fallen in front of the house.No structure damage is on the Ground.

Section 6. Dead Western Joshua Tree Attestation or Certification
