State type and section number: Section 15301 Existing Facilities
- Statutory Exemption.
State code number:
- Common Sense Exemption (Section 15061(b)(3))

Reasons why project is exempt:

Section 15301 Existing Facilities (Class 1): The Class 1 Categorical Exemption consists of the operation, repair, maintenance, permitting, leasing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The project consists of a MJRP to reconcile multiple permits under one new MJRP. The Agreement does not cover installation of additional facilities. Therefore, the project involves negligible or no expansion of existing or former use.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of the categorical exemption CEQA Guidelines Section 15301 (Existing Facilities); therefore, the Project is exempt from CEQA and no further environmental review is required.
