Attention: Katie Metraux

The California Highway Patrol's (CHP) South Sacramento Area office received a "Notice of Completion" Environmental Impact Report for the proposed Delta Meadow Park Classification and General Park Project, State Clearing House (SCH) #2025010471. The CHP South Sacramento Area was asked to evaluate potential traffic safety and congestion issues relative to the proposed project located in the Sacramento-San Joaquin River Delta near the communities of Walnut Grove and Locke, within State Parks' Diablo Range District.

After careful review, it was determined the proposed project would likely place additional strain on existing public safety resources. The almost 500 acres of designated state park would likely impact traffic safety, resulting in extended response times attributable to an increase in call volume and vehicular traffic on State Route 160, and the surrounding roadways located within unincorporated Sacramento County.

Should you have any questions, please contact me or Sergeant Keith Nguyen at (916) 464-1450.

Sincerely,
