Project Description: (please use a separate page if necessary)

The proposed EIR provides CEQA clearance for the adoption of the El Camino Real Specific Plan (Specific Plan). The Specific Plan will provide guidance for the transformation of land uses along the El Camino Real corridor and support a multimodal transportation facility, consistent with the General Plan vision. In addition to providing the standards and guidelines that would apply to all development in the plan area, the Specific Plan also defines four land use designations with corresponding character areas along the El Camino Real and provides specific standards and guidelines for these areas.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
