

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Manzanita Elementary School Well Replacement Project

Lead Agency: Manzanita Elementary School District

Contact Name: Joe Lodigiani

Email: jlodigiani@mesd.net

Phone Number: (530)846-5594

Project Location: Gridley, Butte

City

County

Project Description (Proposed actions, location, and/or consequences).

The Manzanita Elementary School District (MESD; District) proposes the Manzanita Elementary School Well Replacement Project (Project) to construct a new 550-foot-deep well to supply 200 gallons per minute (gpm) of potable and non-potable water to the school. The Project also includes the demolition of the existing onsite well per Butte County standards, the installation of 900 feet of C-900 polyvinyl chloride (PVC) piping and PVC underground electrical conduit from the new well location to the existing well location, a new 50 kW 240V 3-Phase diesel generator with automatic transfer switch on a concrete slab next to the new well, a 6-foot-high chain link fence with privacy slats installed around the well and generator, and a 15,000 square foot access road. The access road will connect the new well site to Center Avenue, located north of the Project Area. A roadside swale will also be constructed to allow for drainage. Electrical components such as meter/main and switchboard, deep well submersible pump and motor with Variable Frequency Drive (VFD) motor controller, and conduit will be installed.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources: mitigation requirements for the protection of MBT A protected birds, Swainson's Hawk and Burrowing owl, and BMPs.

Cultural Resources: mitigation requirements for the discovery of unknown cultural resources

Paleontological/ Geological Resources: mitigation requirements for the discovery of unknown paleontological or geological resources

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

California Regional Water Quality Control Board
California Department of Wildlife
