Project Title: Alamo Creek Bank Stabilization and Flood Management Pilot Project

Project Applicant: Zone 7 Water Agency

Project Location (include county): Alamo Canal (waterway) in Dublin; Alameda County

Project Description:

The Project includes habitat uplift and bank stabilization features that will direct flows to the center of the channel and away from the banks and revegetate the banks with native plant species. The Project will reduce bank erosion caused by high turbulence and flows, thereby enhancing flood protection by maintaining the flood control channel. Reduced toe scour and bank erosion will also reduce fine sediment inputs to the creek and improve downstream water quality.

This is to advise that the Zone 7 Water Agency has approved the above
 Lead Agency or Responsible Agency)

described project on April 16, 2025 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
