Project Name: Installation of EV Chargers at Imperial Landscape and Otay Maintenance Stations

Project Description

Caltrans proposes to upgrade electrical service and install electrical vehicle (EV) chargers at the Imperial Landscape (#5807) and Otay (#5706) Maintenance Stations. Currently, the Imperial Landscape and Otay Maintenance Stations do not have EV chargers nor electrical capacity to support a Tier 3 EV charger. Due to the delivery schedule of the EV's, an emergency contract is in the best interest of the State to upgrade electrical service and install the required charging stations for the electric powered vehicles. Without the electrical service upgrade and installation of charging stations, these maintenance yards will not be able to utilize the State's electrical vehicle fleet. All work will occur within State right-of-way. No ground disturbance or vegetation removal is anticipated for this project. Environmental commitments for NPDES/Stormwater are included in the Environmental Commitments record (ECR).
