Present Land Use/Zoning/General Plan Designation:

Various

Project Description: (please use a separate page if necessary)

The MTP/SCS is an integrated land use and transportation strategy for the Sacramento Area Council of Governments (SACOG) region, updated every four years to ensure eligibility for federal and state transportation funding. The MTP is a long-term (20+ year) plan that guides multimodal transportation investments, while the SCS, required under SB 375, aligns transportation, housing, and land use planning to meet California Air Resources Board (CARB) per-capita greenhouse gas (GHG) reduction targets. The 2025 MTP/SCS incorporates regional growth projections adopted in 2022 and prioritizes infrastructure maintenance, smart land use planning, and strategic transportation investments—including highways, bridges, transit expansions, and policies like tolling and congestion management—to enhance regional connectivity and manage forecasted travel demand. If the SCS does not meet CARB's GHG targets, an Alternative Planning Strategy (APS) must be developed to demonstrate how the GHG targets can be achieved.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
