Description of Nature, Purpose, and Beneficiaries of Project:

A request for a Major Grading Permit (GRAD2024-00052) to allow for the construction of a new approximately 1,196 square-foot accessory dwelling unit, a detached 994 square-foot two-car garage, 36 square-foot unconditioned outdoor bathroom and new septic system. The proposed project will disturb approximately 0.62 acres of the approximately 21.5 acre parcel, including 1800 cubic-yards of cut and 750 cubic-yards of fill. The proposed parcel is within the Residential Rural land use category and is located at 1085 Temettate Ridge in the community of Nipomo. The site is in the South County Sub Area of the South County Planning Area.

Name of Public Agency Approving Project: County of San Luis Obispo

Exempt Status/Findings: This project is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be seen with certainty that there is no possibility that this project may have a significant effect on the environment; therefore, the activity is not subject to CEQA. [Reference: State CEQA Guidelines sec. 15061(b)(3), General Rule Exemption].

Reasons why project is exempt:

The project consists of grading for the construction of an accessory dwelling unit and septic located on a previously developed parcel with an existing single-family residence, in an area with similar developments on neighboring parcels. The project area is located within the South County Sub Area of the South County Planning Area and is subject to the applicable sub-area standards outlined in County Code Section 22.98.070.

This project, as proposed, meets all applicable community standards for development. The project is located within a Highway Design Corridor; however, it will not be visible from any state designated scenic highways. There is no current proposal for the removal of any heritage oak trees or other native tree species. The project site is not mapped in an area with potential Pismo clarkia habitat and the project area does not fall within San Joaquin kit fox habitat and, therefore, does not require related mitigation measures. Therefore, the project will maintain compliance with local policies and ordinances protecting biological resources and no further environmental review is necessary.

The project is not located near a stream or in an area with known archaeological resources; therefore, impacts to cultural resources are not anticipated. In the unlikely event resources are uncovered during grading activities, implementation of County Code Section 22.10.040 (Archaeological Resources) would be required, which states:

A. Construction activities shall cease, and the Department shall be notified so that the extent and location of discovered materials may be recorded by a qualified archaeologist, and disposition of artifacts may be accomplished in accordance with state and federal law.

B. In the event archeological resources are found to include human remains, or in any other case when human remains are discovered during construction, the County Coroner shall be notified in addition to the Department so proper disposition may be accomplished. Existing grading and drainage regulations will adequately address surface water quality impacts during construction and permanent use of the residence.

The project would be subject to the County's Title 19 (Building and Construction Ordinance, Sec. 19.20.238), which ensures the new development has access to adequate utilities such as water and sewer/septic facilities. All services and utilities are available to serve the project; the project will utilize the existing well serving the existing single-family residence.

The project will conform to the applicable General Plan and Area Plan standards, and no measures beyond those required by County Code are necessary to address the environmental impacts associated with the proposed project.

Additional Information: Additional information pertaining to this notice of general rule exemption may be obtained by reviewing the second page of this document and by contacting the Environmental Coordinator, 976 Osos St., Rm 200, San Luis Obispo, CA 93408 (805) 781-5600.

Notice of General Rule Exemption

Project Title and No.: Waldrop Major Grading Permit; GRAD2024-00052, ED24-220

Pursuant to section 15061 of the State California Environmental Quality Act (CEQA) Guidelines, the preliminary review of a project includes a determination as to whether a project is exempt from CEQA. This checklist represents a summary of this project's review for exemption.

	<u>YES</u>	<u>NO</u>
1. Does this project fall within any exempt class as listed in sections 15301 through 15329 of the State CEQA Guidelines?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Is there a reasonable possibility that the project could have a significant effect on the environment due to unusual circumstances?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Is the project inconsistent with any Federal, State, or local law or administrative requirement relating to the environment?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Will the project involve substantial public controversy regarding environmental issues?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6. Does the project have the potential to achieve short-term environmental goals to the disadvantage of achieving long-term environmental goals? (A short-term impact on the environment is one which occurs in a relatively brief, definitive period of time while long-term impacts will endure well into the future.)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. Does the project have adverse impacts which are individually insignificant, but cumulatively significant? Cumulatively significant means that the incremental effects of an individual project are substantially adverse when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

On the basis of this initial evaluation, I find that the proposed project does not have the potential to cause a significant effect on the environment and is therefore exempt from CEQA.
