Project Description (Proposed actions, location, and/or consequences).

Placer County Transportation Planning Agency (PCTPA) is in the process of updating the Placer County Regional Transportation Plan (RTP), known as the 2050 RTP, and has determined that the update is subject to the California Environmental Quality Act (CEQA). CEQA requires the preparation of an environmental impact report (EIR) prior to approving any project that may have a significant impact on the environment. PCTPA has a certified program-level EIR that was prepared for their existing RTP. They intend to prepare a supplemental EIR to evaluate new information and changes that have occurred since certification of the program-level EIR. It is noted that not all aspects of the future improvement projects are known at this stage in the planning process to enable detailed site specific analysis. Individual improvement projects that require further discretionary approvals when their project details become available will be examined in light of this EIR to determine whether additional environmental documentation must be prepared.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

All environmental topics identified in Appendix G of the State CEQA Guidelines will be analyzed within the EIR, including: Aesthetics, Agricultural and Forestry Resources, Air Quality, Biological Resources, Cultural Resources, Energy, Geology/Soils, Greenhouse Gases/Climate Change, Hazards and Hazardous Materials, Hydrology/Water Quality, Land Use/Planning, Mineral Resources, Noise, Population/Housing, Public Services, Recreation, Transportation/Circulation, Tribal Resources, Utilities and Service Systems, Wildfire, Cumulative Impacts, and Growth Inducing Impacts.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
