Alhambra, CA 91803-1331**

Project Title: Bradbury Channel Soffit Repair Phase II

Project Location – Specific: Bradbury Drain, between Oak Drive to Royal Oaks Drive North

Project Location – City: Bradbury

Project Location – County: Los Angeles

Description of Nature, Purpose, and Beneficiaries of Project

The project continues the storm drain repair and rehabilitation at Bradbury Drain, which includes the full width soffit spall repair and a partial soffit spall repair of a 1,100-foot alignment of the reinforced concrete (RC) box drain. All work will be done in District right of way (ROW) with hand tools. The drain will be accessed from the outlet at the Bradbury Channel, and a staging area will be located on a vacant lot near the terminus of Royal Oaks Drive North. Construction is anticipated to take approximately 90 days during the dry season, starting in spring 2025 through summer 2025.

Name of Public Agency Approving Project: Los Angeles County Flood Control District

Name of Person or Agency Carrying out Project: Los Angeles County Flood Control District

Exempt Status (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
 - Declared Emergency (Sec. 21080(b)(3); 15269(a));
 - Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
 - Categorical Exemption. State Type and section number: State CEQA Guidelines Section 15301(b)(d); 15302(c); and Class 1(e); Class 2(b)(e) of the County's Environmental Document Reporting Procedures and Guidelines, Appendix G.
 - Statutory Exemption. Section 15262
-

Reasons why project is exempt:

The project is exempt from CEQA per State CEQA Guidelines Section 15301 and 15302 because the project consists of the continuation of the soffit spall repair and rehabilitation at the existing Bradbury Drain within ROW. The rehabilitation is considered maintenance work on an existing facility and the project does not result in a change or expansion of use of the drain.

Additionally, the project is not located in a sensitive environment and there are no cumulative impacts, unusual circumstances, damage to scenic highways, listing on hazardous waste sites pursuant to Government Code Section 65962.5, or indications that the project may cause a substantial adverse change in the significance of a historical resource that would make the exemption inapplicable based on the record of the proposed activities.
