

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Woodland Community College Soccer Field Project

Lead Agency: Yuba Community College District

Contact Name and Title: David Willis - District Director, Facilities Planning, Maintenance and Operations

Email: dwillis@yccd.edu Phone Number: (916)747-4262

Project Location: Woodland Yolo
City *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project includes construction of a new synthetic turf 75 x 120-yard soccer field with a spectator seating area, player seating area with shade structure, tombstone wall with 10' x 12' shade structure, portable goal storage area, 48" x 30" storage box, scoreboard, drinking fountain, and an area for BBQs, pop-up tents, and other similar uses. The project is located in the southwest quadrant of the campus, south of Building 600 and west of Building 800. The soccer field will host games and practices for the women's and men's soccer teams. As no lighting is proposed, games and practices would occur during daylight hours.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project would result in potential significant impacts to Biological Resources, Cultural Resources, and Geology and Soils. Proposed mitigation measures, summarized below, would reduce the identified impacts to a less-than-significant level.

MM-BIO-1: Addresses potential impacts to special status species, San Joaquin spearscale, by requiring botanical field surveys prior to construction activities and rare plant avoidance.

MM-BIO-2: Addresses potential impacts to nesting and migratory birds by requiring preconstruction surveys and nest avoidance.

MM-CUL-1: Addresses potential impacts to historical or archeological resources by requiring construction to be halted in the event an unanticipated archeological resource is exposed until a qualified archeologist can evaluate the significance of the find.

MM-CUL-2: Addresses potential impacts to human remains by halting disturbance of the site until the County Coroner has determined the appropriate treatment of the human remains.

MM-GEO-1: Addresses potential impacts to paleontological resources by requiring construction to be halted in the event a suspected paleontological resources is encountered.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.
