Project Description

Project Title: San Timoteo Creek Emergency- February 2025 Atmospheric Rainstorm.

Project Location: San Timoteo Creek, on the west side of Alessandro Road, in the city of Redlands, San Bernardino County.

Project Description: The atmospheric rainstorm that occurred on February 12-14, 2025, caused significant erosions on the north side of San Timoteo Creek downstream of Alessandro Road, posing an imminent threat to life and property. The affected area is located on private land, where the levee and a critical access road, which serves as a secondary and emergency exit for the adjacent property owner, have been significantly compromised. Emergency work includes, but is not limited to, the repair of the slope, levee, and access road; moving sediment within creek bed to reinforce northeast slope; removal of downed tree; and importation of materials to fill the erosions along the road and levee.
