Project Description: *(please use a separate page if necessary)*

The proposed project consists of the installation of digital street signs and kiosks in 20 generally designated areas along Century Boulevard, Manchester Boulevard, Prairie Avenue, and Florence Avenue in the City of Inglewood. The digital signs would serve as information beacons, offering real-time updates on local events, full motion images (i.e., moving pictures or animations that play seamlessly), weather conditions, and vital news. The digital signs also facilitate two-way communication between the City and its residents through community messaging. Their adaptive content feature ensures that information and advertising are always relevant, optimizing the effectiveness of campaigns.

There would be two types of digital signs: kiosks and digital street displays. The kiosks would be comparable in size to traditional bus shelter advertisements and the digital street displays would be no taller than 22 feet from the ground to the top of the structure. Kiosks would be installed on the public sidewalks and the digital street displays would generally be installed within the center medians of the Century Boulevard, Manchester Boulevard, and Florence Avenue. Digital street displays would be installed within the public sidewalks and within the center medians of the roadways. Prairie Avenue does not have a center median, so the digital street displays would be installed on the sidewalk. It is also possible that some of the digital street displays on Manchester Boulevard would be installed on the sidewalk, depending on where the information and communication technologies (ITC) infrastructure is located. The specific placement of digital signs would integrate with the urban setting while ensuring pedestrian and traffic flows remain unhindered. Renderings of the kiosks and digital street displays are presented in Figure 2-2.

The proposed project would be implemented in two phases. In total, 60 digital signs and 108 digital screens would be installed in Phase 1 and Phase 2, as shown in Table 2-1. Phase 1 and Phase 2 may occur simultaneously or separately based on City collaboration.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
