

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Creston Road Bridge over Quail Creek Replacement Project, 300714/ ED24-106

Lead Agency: County of San Luis Obispo Department of Public Works

Contact Name: William Fox, Environmental Specialist

Email: wafox@co.slo.ca.us Phone Number: 805-781-1952

Project Location: Paso Robles County of San Luis Obispo
City *County*

Project Description (Proposed actions, location, and/or consequences).

The purpose of this project is to replace the existing, structurally deficient bridge which was damaged during January 2023 storm events and temporarily repaired to preserve public access. The proposed permanent bridge would consist of a 75-foot-long, 38 feet wide, single-span, precast, prestressed voided slabs supported on seat type abutments founded on a pile cap and driven steel HP piles. Traffic will be accommodated during construction with a temporary detour via South El Pomar Road. Construction activities would occur over a period of 9 months and are anticipated to begin in May of 2026. Construction will be scheduled during the non-rainy season when conditions are dry, or creek flows are at their lowest, however creek diversion and dewatering may be required. Avoidance, minimization, and mitigation measures will be implemented to ensure project impacts are less than significant. The project location is located within the El Pomar-Estrella Subarea of the North County Planning Area, Supervisorial District 5, approximately 5 miles east of Highway 101 in a rural, unincorporated area of the county.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project has the potential to substantially degrade the quality of the environment. Incorporation of Mitigation Measures related to Air Quality (AQ-1 through AQ-3), Biological Resources (BR-1 through BR-18), Cultural Resources (CR-1 through CR-4), Geology and Soils (GS-1), and Hazards and Hazardous Materials (HZ-1 through HZ-3) included in Exhibit B of the IS/MND would ensure that the project would not have potentially significant effects.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

Caltrans District 5
US Army Corps of Engineers
California Department of Fish and Wildlife
Central Coast Regional Water Quality Control Board
