

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Ontario Avenue Widening and Restriping Project

Lead Agency: County of Riverside Transportation Department

Contact Name: Jan Bulinski

Email: JBulinski@RIVCO.ORG Phone Number: 951-955-6859

Project Location: Community of El Cerrito  
*City*

Riverside  
*County*

Project Description (Proposed actions, location, and/or consequences).

The County of Riverside Transportation Department proposes to widen and restripe Ontario Avenue from State Street to Diplomat Avenue to provide a four-travel lane facility consisting of two southbound lanes, two northbound lanes, one two-way left-turn lane, and two marked on-street bike lanes. The roadway is currently striped for a three-lane configuration with two southbound lanes, one northbound lane, one two-way left turn lane, and no bike lanes. The project would entail resurfacing the existing roadway and widening along the east side between Diplomat Avenue and Rising Sun Road for a consistent 64-foot wide curb-to-curb width. Other project improvements include the conversion of existing drainage inlets to catch basins and completing a missing sidewalk segment along the west side of Ontario Avenue between State Street and Piute Creek Road.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have less than significant effects with mitigation on Biological Resources. For impacts on Biological Resources, the project will implement mitigation measure MM BIO-13 (Protection of Oak Trees) to protect oaks to the maximum extent possible.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.
