Project Description: (please use a separate page if necessary)

The proposed 2025 Sanitary Sewer Master Plan (SSMP) Update updates the 2013 Sanitary Sewer Master Plan by assessing sewer improvements and infrastructure. The Project identifies potential future sewer projects, addresses existing and future deficiencies, and highlights areas that may require expansion to adequately serve both the current and future population projections. This planning effort is aligned with the City's 2030 General Plan build out and implements the General Plan goals, policies, and actions requiring the City to update and maintain the Sanitary Sewer Master Plan (Action PPF-4.1.2).

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
