Project Description

Caltrans proposes a guardrail repair project on I-8 in San Diego County. Project work includes 15ft wide to 5ft depth grading along the proposed guardrail, pouring concrete for footing and approach transitions, excavating using a mini excavator to install metal posts into the ground, and replacing the guardrail and end treatments to current standards. Repair of the damaged guardrail and end treatments to current standards in a timely manner is necessary to secure the safety of the motoring public. Ground disturbance would occur within the graded area. No vegetation removal is anticipated. All work is within CT ROW. Environmental commitments for biological resources, visual resources, hazardous waste, and stormwater are included in the Environmental Commitments Record (ECR).
