Present Land Use/Zoning/General Plan Designation:

Mixed; park, low- and medium-density residential, schools, commercial developments, light manufacturing, and light industrial businesses

Project Description: *(please use a separate page if necessary)*

The Wilmington Greening Infrastructure Projects include two individual but related proposed Projects. The Projects would reduce pollutant loads in stormwater that flow through the community and into the Dominguez Channel Watershed and the Los Angeles/Long Beach Harbor Watershed by capturing stormwater and helping to alleviate flooding in the surrounding area. The captured stormwater would eventually be treated at the Terminal Island Wastewater Reclamation Plant, increasing the recycled water supply in the City of Los Angeles.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
