Present Land Use/Zoning/General Plan Designation:

Timberland Production Zone (TPZ)/Timberland (T)

Project Description: *(please use a separate page if necessary)*

A Special Permit (SP) for the construction of an approximately 2 million gallon water storage pond partially within the Streamside Management Area (SMA). The overall project will construct two ponds totaling 6 million gallons of capacity and associated plumbing infrastructure designed to deliver 25 gallons per minute (GPM) of flow augmentation to Vanauken Creek during the four month dry season for the purpose of improving instream aquatic habitat. These ponds will be off-channel and will be filled exclusively with runoff and direct precipitation and the project includes no stream diversions. The project is anticipated to provide significantly improved habitat for coho salmon (*Oncorhynchus kisutch*) and steelhead (*Oncorhynchus mykiss*) in Vanauken Creek, an important salmon bearing tributary to the Mattole River.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
