Project Description (Proposed actions, location, and/or consequences).

The Trail Project (Project) is a corridor improvement project proposed on 2.15± miles of an existing transportation corridor including Hatch Road and Sullivan Road, located in the south center region of Twentynine Palms in San Bernardino County, California.

Pursuant to the City's Circulation Plan and Twentynine Palms Community Trail Master Plan, the Project proposes infrastructure development along Hatch Road and Sullivan Road to include a multimodal transportation system comprised of new asphalt pavement so as to accommodate two Class II bike lanes and a graded shoulder/pedestrian walkway. Existing paved roadways and walkways will be incorporated into the final site design.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources: Potential impacts to Desert tortoise, burrowing owl and nesting birds will be mitigated by pre-construction surveys and a workers' education program.

Cultural Resources: Potential impacts to archaeological resources will be mitigated by monitoring of construction activity.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.
