

## CEQA Notice of Exemption

TO:  Office of Planning & Research  
1400 Tenth Street, Room 121  
Sacramento, CA 95814

FROM: Department of Development Services  
411 W. Ocean Blvd, 3<sup>rd</sup> Floor  
Long Beach, CA 90802

L.A. County Clerk  
Environmental Fillings  
12400 E. Imperial Hwy., Room 1201  
Norwalk, CA 90650

Exemption Number: CE24-107

Project Title (Application Number): PLNE 58600- Adult & Medical-Use Cannabis Cultivation Facility

Project Location – Specific: 2110 E Cherry Industrial Circle

Project Location – City/County: **City of Long Beach, Los Angeles County, California**

Description of Nature, Purpose and Beneficiaries of Project:

Project involves establishing an adult & medical-use cannabis cultivation facility (MJ22016832 & MJ22015975) within an existing structure, along with constructing a second-story addition at the address mentioned above.

Public Agency Approving Project: **City of Long Beach, California**

Person or Agency Carrying Out Project: Haro Bezdikian for Fly Hye, LLC.

Exempt Status: **(Check One)**

Ministerial (Sec 21080(b)(1); 15268);

Declared Emergency (Sec 21080(b)(3); 15269(a));

Emergency Project (Sec 21080(b)(4); 15269(b)(c));

Categorical Exemption. State type and section number: Class 1, Existing Facilities, Section 15301

Statutory Exemption. State code number: \_\_\_\_\_

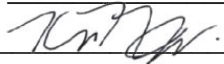

Reasons why project is exempt:

The existing business is an adult & medical-use cannabis cultivation facility that is permitted as a matter of right within the existing building. Furthermore, the proposed addition will not result in an increase of more than 2,500 square feet.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT  
STATEMENT OF SUPPORT  
CLASS 1 (EXISTING FACILITIES)  
EXEMPTION DETERMINATION  
2110 East Cherry Industrial Circle  
CE24-107  
MJ22016832 & MJ22015975  
March 7, 2025**

Section 15300 through 15333 of the California Environmental Quality Act (CEQA) establishes certain classes of projects as categorically exempt from the provisions of CEQA because they do not ordinarily result in a significant effect on the environment.

**Lead Agency:** City of Long Beach Community Development Department.

**Applicant Entity/Business Name:** Haro Bezdikian for Fly Hye, LLC.

**License Type(s):** Business Licenses for an Adult & Medical-Use Cannabis Cultivation Facility.

**Project Description:**

The project is located at 2110 East Cherry Industrial Circle, Long Beach, CA 90805 within Los Angeles County (Figure 1 – Vicinity & Aerial Map). The site is on the south side of Cherry Industrial Circle, east of the intersection of Cherry Ave and Cherry Industrial Circle. The site Assessor's Parcel Number, 7157-014-019, and features an area of 0.49-acres.

The 0.49-acre subject site and surrounding properties are located on relatively flat lots. There are no natural features in the immediate, or quarter-mile vicinity.

The subject site is within the Neo-Industrial Focused zoning district (NI-1) and has a General Plan Land Use PlaceType designation of Neo-Industrial (NI/ 4 ST).

The subject site is currently developed with a 10,100 square-foot industrial building, 18'-8" in height. The proposed Adult Use Cannabis Self-Distribution and Manufacturing Facility would utilize the entire 10,100 square foot building. Per the approved plans, the site features a large curb cut that provides access along Cherry Industrial Circle.

The project proposes interior renovations and a second story addition to the existing 10,100 square-foot industrial building. Improvements include interior and exterior modifications, as well as updates to plumbing, electrical, mechanical systems, and other standard tenant upgrades.

The project has obtained city approved permits which include a building permit, health permits, and business licenses.

The primary operations will occur entirely within the enclosed structures and pose limited potential for environmental impacts on neighboring uses. All medical and adult use cannabis facilities are subject to stringent rules and regulations governed by Long Beach Municipal Code Title 5 – Regulation of Businesses, Trades, and Professions.

**1. Is the project site currently operating as a cannabis cultivation site or a similar use, or has it recently operated for this purpose?**

The site is within the Neo-industrial Focused zone that is served with existing public infrastructure which includes sewer, water, and electrical and gas services. The current cannabis use was established in 2022, before which the site was used as commercial and industrial rental space. The existing adult and medical-use cannabis cultivation facility is identified as an industrial use by the Long Beach Municipal Code and is permitted by right in the zoning district.

**2. Does the project involve an expansion of existing structures that would be considered only minor?**

The existing 10,100-square-foot industrial building will undergo interior renovations without expanding its first-floor footprint. Improvements proposed include interior modifications, plumbing, electrical, mechanical, and similar typical tenant improvements.

**3. Project Expansion:**

The project proposes to add an 1,839 square-foot second-story addition. Improvements proposed include interior and exterior alterations, plumbing, electrical, mechanical, and similar typical tenant improvements.

**4. Is the project site served by all public services sufficient to serve the project (e.g., water, sewer, electricity, and gas)? The preparer should indicate which public services serve the site.**

The project site is currently served by all city public services which include sewer, water, and gas infrastructure as confirmed by the current internal GIS city-data accessed on March 7, 2025. The site is also serviced by Southern California Edison (SCE) for electrical needs as confirmed by SCE's service territory map, accessed March 7, 2025. ([SCE Service Territory](#))

**5. Is there evidence that the project site is located in an environmentally sensitive area?**

This project is not located in an environmentally sensitive area as verified on the GeoTracker website on March 7, 2025. The built-out site itself is located in the Neo-Industrial Focused Zoning District which allows for industrial uses and is not in any proximity to any important mineral resources; protected aquatic habitats, including wetlands; environmentally sensitive wildlife habitat; or areas known to include cultural, paleontological, and/or historical resources. <https://geotracker.waterboards.ca.gov/map/>

**6. Does the project require a water right permit or another environmental permit that could result in physical changes to the environment?**

This project does not require a water right permit or another environmental permit. The project is fully developed and served by existing utilities as detailed in response 4.

**EXCEPTIONS TO EXEMPTIONS**

**7. Scenic Highways**

This is not applicable as this project is not near nor visible from an official State Scenic Highway as confirmed from the Long Beach General Plan Mobility Element and the Caltrans website verified on March 7, 2025. ([California State Scenic Highway System Map](#))

**8. Is the project located on a site included on any list compiled pursuant to Government Code § 65962.5 (Cortese List)?**

The California Department of Toxic Substances Control does not identify this site as a hazardous site ([EnviroStor](#)) as confirmed on March 7, 2025.

**9. Would the project result in a substantial adverse change in the significance of a historic resource?**

This project is not located in an area of significant historic resources as verified in the city's GIS system that listed historical database from the National Register of Historic Places as verified on March 7, 2025. This existing 10,112 square-foot industrial building, where the proposed cultivation facility is, is not a recognized historic landmark nor a historic building. ([National Register of Historic Places](#))

**10. Is there evidence of the potential for the project to contribute to a significant cumulative impact?**

This project proposes to reuse an existing 10,100 square-foot industrial building for an adult use cannabis cultivation facility. The operations of this facility do not provide evidence of the potential for the project to contribute to a significant cumulative impact as the use is in an Industrial zoning district which allows industrial type uses. The proposed project as an industrial use is anticipated by the City of Long Beach General Plan and Land Use Element and would not contribute to a significant cumulative impact that was not previously analyzed. The Long Beach General Plan Program Environmental Impact Report (PEIR) was adopted in December of 2019 (State Clearinghouse No. 2015051054). The project's impacts are furthermore mitigated by conditioned compliance with applicable code requirements which include, but not limited to, noise, discharges, and material handling.

**11. Is there evidence of a reasonable possibility of a significant environmental impact due to unusual circumstances?**

The project does not contain any unusual aspects in the ongoing operations that may lead to a more substantial impact. The proposed use is consistent with industrial uses allowed in the zoning district.

**Eligibility Determination**

Based on information contained in the administrative record, as reflected in the answers provided to Questions 1-11 above, the project or project element(s) are eligible for a Class 1 categorical exemption. The project or project element(s) fit(s) within the parameters included in CEQA Guidelines Section 15301, and none of the exceptions to this exemption defined in Section 15300.2 apply.
