

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: 03-4J550 Truckee Wash Rack Sewer Connection Project

Lead Agency: California Department of Transportation

Contact Name: Tracy Robinson

Email: Tracy.Robinson@dot.ca.gov

Phone Number: 530-720-3499

Project Location: Truckee

City

Nevada

County

Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation California Department of Transportation (Caltrans) proposes a maintenance project at the Truckee Maintenance Station (MS) in Nevada County at Post Mile 15.661. The project proposes to connect the existing wash rack to the municipal sewer system. The scope of work includes creating a trench drain to collect wash water and installing an electrical diversion valve and a sand-oil separator. The three-way solenoid valve would be installed at the outlet of the trench drain and would determine whether the discharge from the wash rack goes to the storm drain or the sand-oil separator. When the wash rack is in use for a vehicle wash, the valve would divert the wash water to the sand-oil separator and then to the sewer system. When the wash rack is not in use, the valve would direct stormwater to the storm drain. Additionally, a sampling port would be installed so maintenance staff can collect samples of the wash water entering the sewer system.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have No Effect on Aesthetics, Agriculture and Forest Resources, Air Quality, Biological Resources, Cultural Resources, Energy, Geology and Soils, Land use and Planning, Mineral Resources, Noise, Population Housing, Public Services, Recreation, Transportation, Tribal Cultural Resources, Utilities and Service Systems, Wildfire and Mandatory Findings of Significance.

The project would have Less than Significant Impacts to Greenhouse Gas Emissions, Hazards and Hazardous Waste and Hydrology and Water Quality.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy were identified by the lead agency, other review agencies or the public.

Provide a list of the responsible or trustee agencies for the project.

None
