Project Description

Caltrans will repair a damaged sinkhole along southbound Interstate 15 (I-15), which is immediately south of Market Street in San Diego, CA. Work shall be performed by pumping slurry to fill in the hole, and also includes the construction of area signs and Traffic Control System. No soil disturbance is anticipated because construction equipment will be parked on the shoulder due to a concrete barrier prohibiting access other than foot to pump slurry into the hole. All work will occur within Caltrans state right-of-way. Environmental commitments for visual resources, hazardous waste/materials, and NPDES/Stormwater are included in the Environmental Commitments record (ECR).
