

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Hell Hole Worker Campground, Potable Water Supply System, and Communications Upgrade Project

Lead Agency: Placer County Water Agency

Contact Name: Ben Ransom

Email: bransom@pcwa.net Phone Number: (530) 308-4554

Project Location: unincorporated area of Foresthill Placer County

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The Project is the construction of the new approximately 1.7-acre Hell Hole Worker Campground that will provide recreational vehicle stalls and picnic sites only for use by the Placer County Water Agency (PCWA) or others (as approved) working in the vicinity of the Project Middle Fork American Project (MFP) (Federal Energy Regulatory Commission (FERC) Project No. 2079) area. The Project also includes several improvements required under the FERC License for the MFP, including provision of potable water system and other minor improvements to the nearby Hell Hole Boat Ramp General Parking Area. PCWA therefore will construct a potable water system that will serve the worker campground, the existing Hell Hole Dormitory and operator cottages and shop, as well as the Hell Hole Boat Ramp General Parking Area. Finally, As part of this Project, PCWA also will also install communication lines to provide improved data and internet communications to the worker campground, Hell Hole Dormitory, operator cottages and shop, and the Hell Hole Boat Ramp.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Proposed Project, with the implementation of Mitigation Measures outlined in the IS/MND, will result in minor, less than significant impact, or no impacts to all areas analyzed in the document.

Measures implemented by PCWA include, but are not limited to, the following kinds of measures: air quality best management practices; pre-construction biological resource surveys; environmental, cultural, and Tribal resources awareness training; development of a Stormwater Pollution Prevention Plan; construction and erosion control measures, protocols for inadvertent discovery of cultural and/or Tribal resources; fire prevention measures; and water quality best management practices.

A complete list of mitigation measures is provided in the Mitigation Monitoring and Reporting Program in the IS/MND.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy, no issues to date have been raised by agencies or the public.

No other issues were raised by agencies or the public.

Provide a list of the responsible or trustee agencies for the project.
