**Project Description:** (please use a separate page if necessary)

The City of Glendale CA is proposing a Climate Action and Adaptation Plan (CAAP) to establish a framework for reducing greenhouse gas (GHG) emissions and improving community resilience to climate change. The CAAP outlines strategies and actions in sectors such as energy, transportation, waste management, and land use to achieve sustainability goals. Implementation of the CAAP would involve policy recommendations, community programs, and infrastructure improvements to support emissions reductions and climate adaptation measures.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
