Project Description (Proposed actions, location, and/or consequences).

The City of Glendale CA is proposing a Climate Action and Adaptation Plan (CAAP) to establish a framework for reducing greenhouse gas (GHG) emissions and improving community resilience to climate change. The CAAP outlines strategies and actions in sectors such as energy, transportation, waste management, and land use to achieve sustainability goals. Implementation of the CAAP would involve policy recommendations, community programs, and infrastructure improvements to support emissions reductions and climate adaptation measures.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.
