**Description, Nature, Purpose and Beneficiaries of Project:**

The project will install AMI (advanced metering infrastructure) antennas at three of the District’s existing reservoir facilities: Bear Brand, Laguna Sur, and Sheep Hills. The antennas will be mounted onto existing District infrastructure and will require minor electrical improvements, such as new conduit, to facilitate installation of the antennas.

The project will increase the consistency and reliability of the existing AMI network.

The primary beneficiaries of this project will be the District's residential customers.
