

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Consolidation of South Kern and Old River MWC into the City of Bakersfield Water System AR 6060 Prop1

Lead Agency: City of Bakersfield

Contact Name: Kristina Budak

Email: kbudak@bakersfieldcity.us

Phone Number: 661-326-3715

Project Location: Bakersfield, Kern County

City

County

Project Description (Proposed actions, location, and/or consequences).

Old River Mutual Water Company (MWC) and South Kern MWC provide water service to residential and commercial customers located in the community of Old River in unincorporated Kern County. Each MWC operates using a single well, and both wells produce water that exceeds allowable levels of contaminants. Therefore, the proposed project includes the abandonment of the two wells and the extension of the City of Bakersfield's water system to consolidate both MWCs into the City of Bakersfield's water system. The proposed project would involve the construction of approximately 6,000 linear feet of a new 10-inch water main, 1,600 linear feet of 8-inch lateral pipelines, and 29 household connections. Three fire hydrants would also be installed, and the two MWC wells would be abandoned as part of the project. The new 16-inch water main would be located within the disturbed portions of Old River Road and SR-119. The proposed 8-inch lateral pipelines and household connections would be located within disturbed portions of Par Street, Beam Street, and front yards of existing residences.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources: BIO-1, Pre-Construction Surveys and Worker Environmental Awareness Training
 Cultural Resources: CUL-1, Accidental Discovery of Cultural Resources; CUL-2, Accidental Discovery of Human Remains
 Geology and Soils: GEO-1, Avoid and Minimize Impacts to Paleontological Resources
 Hazards and Hazardous Materials: HAZ-1, Traffic Management Plan
 Hydrology and Water Quality: HYD-1, Prepare and Implement Dewatering and Shoring Plans
 Tribal Cultural Resources: See Mitigation Measures CUL-1 and CUL-2
 Utilities and Service Systems: See Mitigation Measures BIO-1, CUL-1, CUL-2, GEO-1, and HAZ-1
 Mandatory Findings of Significance: See Mitigation Measures BIO-1, CUL-1, CUL-2, GEO-1, HAZ-1, and HYD-1

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None applicable.

Provide a list of the responsible or trustee agencies for the project.

City of Bakersfield, Kern County, Central Valley Regional Water Quality Control Board, Caltrans District 6, Kern Delta Water District, and Kern River Groundwater Sustainability Agency.
