Project Description

San Francisco Municipal Transportation Agency (SFMTA) proposes to adopt San Francisco's Biking and Rolling Plan (Plan). The Plan (formerly the Active Communities Plan) envisions a citywide network connecting communities, making it easy for people of all ages and abilities to travel to school, work, shops and parks by bike, scooter, skateboard, and other low-speed wheeled devices. A strong biking and rolling network supports a safe and connected transportation system and aligns with SFMTA's Transit First Policy, the City and County of San Francisco's Vision Zero Policy, and San Francisco's Climate Action Plan and its goal that 80 percent of trips are made on low-carbon modes by 2030. The Plan includes a set of goals, policies, and actions designed to promote active transportation and greater use of the biking and

rolling network in San Francisco. In addition, the Plan provides a long-term vision to develop a complete network by filling in existing gaps and improving existing infrastructure. The five goals of the Plan include: 1 - Putting People First, 2 - Setting a North Star, 3 - Serving Local Needs, 4 - Delivering the Plan, and 5 - Resourcing People. Within each goal is a set of policies and actions that are intended to facilitate achieving each goal. The Plan incorporates specific recommendations related to active transportation policy, programs, and infrastructure identified in the Community Action Plans developed for these communities. The Plan includes a North Star network map which conveys a future connected network of All-Ages-and-Abilities bikeways, linking all neighborhoods to parks, schools, shopping districts, employment, community centers, and other services.
