California Fish and Game Commission

Document Title

Proposed Amendments to 2025 Klamath River Basin Sport Fishing Regulations

Document Type

NOI - Notice of Intent

Received

04/08/2025

Document Description

The California Fish and Game Commission (Commission) proposes to amend subsection (b)(50) of Section 7.40 of Title 14, California Code of Regulations (CCR), related to Klamath River Basin sport fishing regulations.

The proposed sport fishing regulations for the Klamath River Basin may increase or decrease the current salmon bag and possession limits, or close take and possession of Chinook salmon.

Four regulatory options are provided for the Commission's consideration to tailor 2025 Klamath River Basin fishery management to target 2025 in-river fisheries harvest projections. The options presented for consideration may be adopted independently or in combination for different parts of the basin:

1. Option 1 allows take of any size Chinook salmon up to the daily bag limit [0-4] and possession limit [0-12].
2. Option 2 allows take of a limited number of adult Chinook salmon, with grilse Chinook salmon making up the remainder of the daily bag limit [0-4] and possession limit [0-12].
3. Option 3 allows take of only grilse Chinook salmon up to the daily bag limit [0-4] and possession limit [0-12]. Take of adult Chinook salmon would not be allowed.
4. Option 4 provides closure to take and possession of Chinook. Unless otherwise noted, this option will allow take of other species.

The Commission will consider this action at a meeting scheduled for May 14, 2025. Background information and information on public participation may be found at www.fgc.ca.gov.
