PROJECT TITLE Mono Basin Temporary Urgency Change Petition June-July 2025	LOG REFERENCE N/A
---	-----------------------------

PROJECT LOCATION
Grant Lake, Mono County, CA. 37.861800, -119.106123. See attached map.

DESCRIPTION OF NATURE, PURPOSE, AND BENEFICIARIES OF PROJECT:
A Temporary Urgency Change Petition is requested to change operations in the Mono Basin from June 2, 2025 through July 3, 2025 (32 days). LADWP Operations will deviate from the flow requirements of Amended Licenses 10191 and 10192, due to an operational limitation on flows which can be released safely. Specifically, malfunction of the Grant Lake outlet valve is leading to cavitation in an unsafe manner above 175 cubic feet per second (cfs), which cannot be remediated prior to the requested change date. Cavitation, the rapid collapse of a bubble or void, pits metal and causes heavy vibration leading to substantial wear and tear on valves and pipes which can lead to equipment failure over an extended period of time. Therefore, safe release of flows under 175 cfs is being requested. The total volume of flow over the snowmelt period will not be modified with this request. The Mono Basin Stream Monitoring Team determined that this Petition for Change, if approved, will not result an impact on fish, wildlife or instream uses.

JUSTIFICATION FOR PROJECT EXEMPTION:
In accordance with the California Environmental Quality Act, this project is Categorically Exempt from CEQA review pursuant to Section 15301 (Existing Facilities). Section 15301, Class 1 consists of the operation repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of the existing or former use. The proposal for Mono Basin Temporary Operation Petition meets the requirements of this exemption; therefore, no further CEQA review is required.
