

NOTICE OF EXEMPTION

State of California
 The Natural Resources Agency
 California Department of Forestry and Fire Protection

PROJECT TITLE	Condor Court Roadside Fuel Reduction		
PROJECT LOCATION	T19N; R14W; Sec 19; MDB&M	COUNTY	Mendocino
LEAD AGENCY	California Department of Forestry and Fire Protection (CAL FIRE)		
CONTACT	Monica Morris Environmental Scientist	PHONE	707-972-9837
ADDRESS	802 North Main Street Fort Bragg, CA 95437		

PROJECT DESCRIPTION

The purpose of this project is to improve ingress and egress safety, reduce wildfire risk, and aid in fire suppression activities through fuel reduction treatments along 0.25 miles of a private road, covering 6 acres along Condor Ct. within the Spring Creek subdivision. Vegetation will be thinned and pruned within the road right-of-way between 30 to 50 feet (from the centerline) with the option to extend thinning to 100 feet given heavy fuel loads and landowner approval. The project area contains mixed conifer/hardwood woodlands and areas with a dense understory of woody shrubs and small trees. Fuel reduction activities involve the use of hand crews, chainsaws (tree falling, bucking, and brushing), pole saws, chippers, heavy equipment with masticator attachments, and pile burning. Live trees (10 inches in diameter or less) may be removed when appropriate to improve spacing or forest health. Slash and debris created by this project will either be chipped/masticated, lop-and-scattered, or piled for burning. Chippers and masticators may enter the project area to implement treatments. Larger trees will be pruned to provide for a vertical clearance of up to 14 feet. Dead and dying trees greater than 10 inches may be removed if they pose a risk to public safety. This project includes long term fuel reduction and hazard tree removal as needed.

EXEMPTION STATUS

- Categorical Exemption Type/Section: Class 4/15304 Minor Alterations to Land
- Statutory Exemption (state code section):
- Ministerial (§21080(b)(1); 15268)
- Declared Emergency (§21080(b)(3); 15269(a))
- Emergency Project (§21080(b)(4); 15269(b)(c))

REASONS PROJECT IS EXEMPT

The project meets the requirements of a CEQA Article 19 Class 4 Categorical exemption “Minor Alterations to Land” (Section 15304, Public Resources Code) as the proposed fuel management activities entail understory brush removal, 10 “DBH or less tree removal, thinning, pruning, chipping, from an existing roadway, and dead/tree removal to improve access for fire engines and reduce volume of flammable vegetation. As such, CAL FIRE has concluded that no significant environmental impact would occur to aesthetics, agriculture and forestland/timberland, air quality, biological resources, cultural resources, energy, geology and soils, greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality, land use planning, mineral resources, noise, population and housing, public services, recreation, transportation/traffic, utilities, and service systems, or to wildfire. No exceptions apply (Section 15300.2) which would preclude the use of a Notice of Exemption for this project. Documentation of the environmental review completed by the Department is kept on file at CAL FIRE Mendocino Unit, 802 N. Main Street. Attn. VMP Coordinator.
