Project Title: 653539_Group_CRPC_UIC

Project Applicant: California Resources Production Corporation

Project Location: Kern County, Kern Front Oil Field; 23/28S/27E/MD; Latitude 35.48199081, Longitude -119.03887177

Project Description: The proposed project consists of sidetracking eleven existing cyclic steam wells in order to continue resource development. The proposed work includes partial abandonment of existing damaged wellbores, site preparation, sidetrack drilling, and well completion. There will be no expansion of the existing well pads, roads, staging areas, or pipelines. No new grading would occur in any undisturbed areas. No new road construction or expansions would be required for the proposed project. Routine maintenance activities at the site would include removal of weeds and other ruderal vegetation for fire control and road maintenance.

The proposed project consists of the California Department of Conservation, Geologic Energy Management Division (CalGEM) approving eleven permits for California Resources Production Corporation to sidetrack the wells listed below, in the Kern Front Oil Field.

API #	Well Name
402942925	YOUNG FEE 58
402957544	MCDUGALL 10
403017017	SEC 23 86R
403034533	SEC 23 255
403037751	SEC 23 282
403037794	SEC 23 280
403043802	SEC 23 288
403045903	MCDUGALL 21
403047224	WETMORE 39
403051990	SEC 25 67
403052353	LIGHTNER 5

Exempt Status: As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

Exemption Type		Statute (PRC)	Regulation (14 CCR)	
<input type="checkbox"/>	Statutory Exemption:			
	<input type="checkbox"/> Ongoing Project (<i>pre-CEQA approval on April 5, 1973</i>)	21169	15261 (b)	
	<input type="checkbox"/> Ministerial	21080 (b)(1)	15268	
	<input type="checkbox"/> Declared Emergency	21080 (b)(3)	15269 (a)	
	<input type="checkbox"/> Emergency Projects	21080 (b)(4)	15269 (b) or (c)	
<input checked="" type="checkbox"/>	Categorical Exemption:	21084		
	<input checked="" type="checkbox"/> Class 1: Existing Facilities		15301	1684.1
	<input checked="" type="checkbox"/> Class 2: Replacement or Reconstruction		15302	
	<input type="checkbox"/> Class 3: New Construction/Conversion of Small Structures		15303	
	<input checked="" type="checkbox"/> Class 4: Minor Alterations to Land		15304	1684.2
	<input type="checkbox"/> Class 7: Protection of Natural Resources		15307	
	<input type="checkbox"/> Class 8: Protection of the Environment		15308	
	<input type="checkbox"/> Class 11: Accessory Structures		15311	
	<input type="checkbox"/> Class 21: Enforcement Actions to revoke a permit		15321	
	<input type="checkbox"/> Class 30: Minor Actions to Prevent, Minimize, Stabilize, Mitigate, or Eliminate a Release (Actual or Threat) of Hazardous Substances (Waste or Material)		15330	
	<input type="checkbox"/> Class 33: Small Habitat Restoration Projects		15333	
<input type="checkbox"/>	General Exemption (“common sense”)		15061 (b)(3)	
<input type="checkbox"/>	Not a “Project” subject to CEQA		15378 (b)(2)	
<p>CEQA Exceptions to the Exemptions (14 CCR § 15300.2): where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.</p>				

Reasons Why Project is Exempt: The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

Class 1, Existing Facilities (14 CCR §§ 15301, 1684.1):

Class 1 consists of the “operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features involving negligible or no expansion of use beyond that existing previously.” This

includes “remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells involving the alteration of well casing, such as perforating and casing repair, removal, or replacement; installation or removal of downhole production or injection equipment, cement plugs, bridge plugs, and packers set to isolate production or injection intervals.” (14 CCR § 1684.1.) The proposed project would make minor alterations to wells, resulting in negligible expansion of use beyond that existing previously. The proposed project and related permit approval is consistent with the laws that govern the operations, including statutory and regulatory provisions that protect public health, safety, and the environment.

Class 2, Replacement or Reconstruction (14 CCR § 15302):

Class 2 consists of the “replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced[.]” (14 CCR § 15302.) The proposed project would reconstruct the casing and wellbores of existing wells. The work would take place on existing wellbores and on existing well pads. The proposed work involves negligible change in use of the wells. The proposed project and related permit approval is consistent with the laws that govern the operations, including statutory and regulatory provisions that protect public health, safety, and the environment.

Class 4, Minor Alterations to Land (14 CCR §§ 15304, 1684.2):

Class 4 consists of “drilling operations that result only in minor alterations with negligible or no permanent effects to the existing condition of the land, water, air, and/or vegetation.” (14 CCR § 1684.2; see also 14 CCR § 15304.) The proposed project involves negligible or no vegetation removal, expansion of the existing well pads, or ground disturbance. Therefore, there would be no surface disturbance related activities that would significantly disturb the surrounding environment. The proposed project and related permit approval is consistent with the laws that govern the operations, including statutory and regulatory provisions that protect public health, safety, and the environment.

Exceptions to Exemptions: CalGEM further finds that there are no exceptions to the application of the categorical exemptions (PRC § 21084; 14 CCR § 15300.2) referenced above. For example, there is no substantial evidence that there are any “unusual circumstances” associated with the proposed project that create a reasonable possibility that the activity will have a significant effect on the environment, and that there are no significant “cumulative impacts” resulting from successive projects of the same type in the same place. Therefore, reliance on the exemptions is appropriate.
