PROJECT TITLE: Richardson Grove State Park Predator Proof Replacement and Repair Project

LOCATION: Richardson Grove State Park

COUNTY: Humboldt

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: The project proposes to remove, replace, or repair predator proof infrastructure in five (5) campgrounds within Richardson Grove State Park to provide safe food storage for park visitors as well as reduce unwanted encounters with wildlife. In the Huckleberry Campground, Madrone Campground, Oak Flat Campground, Dawn Redwood Group Campground and Redwood Campground, one of two installation methods (to be determined on-site) will be used to replace approximately 150 wooden food lockers with metal, “predator proof” food lockers, designed to meet ADA compliance requirements. Work will:

- Use hand tools and/or mechanical gas-powered auger or backhoe-mounted auger to dig an approx. 12-inch-wide by 2-feet-deep hole;
- Use U-bolts to attach a 3.5-inch diameter pole to a locker, and place the post into the hole;
- Backfill around the post with concrete to secure; and
- Cover with native soils (excavation spoils) and/or surrounding duff.

Or

- Hand excavate up to 2-inches to level the surface, or bring in fill to create a level surface;
- Pour a 4-foot by 5-foot by 6-inch-deep slab of concrete; and
- Use four (4) bolts to secure the food locker to the concrete slab.
