Present Land Use/Zoning/General Plan Designation:

Agricultural cropland, low-density residential, agricultural residential, intensive industrial, public space

Project Description: (please use a separate page if necessary)

The RiverArc partners (City of Sacramento, Placer County Water Agency [PCWA], City of Roseville, and Sacramento County Water Agency [SCWA]) are proposing the RiverArc Project to support water supply and environmental benefits in the Sacramento Region.

The proposed project would shift a portion of existing and planned regional water demand from the Lower American River to the Sacramento River. To accomplish this shift, the proposed project would divert water through the existing NMWC Pritchard Lake Diversion intake facility at RM 75.15 on the Sacramento River, deliver the river water via a new raw water pipeline to a new regional WTP, and distribute the treated surface water east and south through new and existing pipelines to service areas of the RiverArc partners.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
