Project Description (Proposed actions, location, and/or consequences).

Reclamation Plan Renewal and Modification to extend the existing quarry mining operation for an additional five (5) years and propose a minor modification of the approved Reclamation Plan and the reclaimed slope configuration to achieve a more natural final contour. The operation, for which a Vested Right has been granted, includes extraction of up to 40,000 cubic yards of material annually, and the processing of 51,000 cubic yards per year.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

A Negative Declaration has been prepared in relation to this project that includes Conditions of Approval to mitigate potential impacts to the environment. An Environmental Impact Report (EIR) is not required because the project will not have significant adverse impacts on the environment.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy have been identified and no issues have been raised by the public or other agencies at this time.

Provide a list of the responsible or trustee agencies for the project.
