

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Lower Central Interceptor Rehabilitation Project

Lead Agency: Sacramento Area Sewer District

Contact Name: Catherine Armstrong

Email: armstrongca@sacsewer.com

Phone Number: (916) 876-7297

Project Location: Sacramento

City

Sacramento

County

Project Description (Proposed actions, location, and/or consequences).

The Proposed Project includes structural rehabilitation of the LCI pipeline. The LCI pipeline will be rehabilitated using CIPP lining, a trenchless rehabilitation process in which a resin-impregnated liner is inserted into the deteriorated pipeline and cured using hot water, creating a new " pipe within a pipe." Because of the large size of the LCI pipelines, the CIPP liner will be inserted via approximately 21 excavation pits, approximately 15 feet by 15 feet and as deep as the existing pipeline, along the LCI pipeline alignment, spaced at intervals of approximately 2,000 feet apart.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

MM-BIO-1: Pre-construction Bumble bee Nest Survey, MM-BIO-2: No Disturbance Buffers for Vernal Pools, MM-BIO-3: Vernal Pools Worker Environmental Awareness Program, MM-BIO-4: Vernal Pools Compensatory Mitigation, MM-BIO-5: Milkweed Preconstruction Survey, MM-BIO-6: Restoration of Temporarily Disturbed Areas, MM-BIO-7: General Nesting Bird and Raptor Surveys, MM-BIO-8: Pre-construction Surveys, MM-BIO-9: Sections 404 and 401 Permitting and Section 1600 LSAA Compensatory Mitigation, MM-CUL-1: Resource Discovery Protocol, MM-CUL-2: Human Remains Discovery Protocol, MM-GEO-1: Paleontological Resources, MM-HYD-1: Prepare Stormwater Pollution Prevention Plan, MM-NOI-1: Employ Noise-Reducing Construction Practices, MM-NOI-2: Noise Complaint Hotline, MM-NOI-3: Vibration Monitoring, MM TCR-1: Discovery of Tribal Cultural Resources

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.
