**Present Land Use/Zoning/General Plan Designation:**

Agricultural Zone, Single-Unit Dwelling Zone, Industrial Office Park, Special Planning Area, Low Density Single-Family Residential

**Project Description:** *(please use a separate page if necessary)*

The Proposed Project includes structural rehabilitation of the Lower Central Interceptor (LCI) pipeline. The LCI pipeline will be rehabilitated using Cured In Place Pipe (CIPP) lining, a trenchless rehabilitation process in which a resin-impregnated liner is inserted into the deteriorated pipeline and cured using hot water, creating a new "pipe within a pipe". Because of the large size of the LCI pipelines, the CIPP liner will be inserted via approximately 21 excavation pits, approximately 15 feet by 15 feet and as deep as the existing pipeline, along the LCI pipeline alignment, spaced at intervals of approximately 2,000 feet apart.

*Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.*

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
