Present Land Use/Zoning/General Plan Designation:

N/A: The pipeline alignment would be located within existing public right-of-way, which does not have a land use or zoning designation.

Project Description: *(please use a separate page if necessary)*

The EMWD proposes to install 4.4 miles of 36-inch-diameter, 30-inch-diameter, and 18-inch-diameter pipelines along Valley Boulevard from the existing EMWD Desalination Complex at 29285 Valley Boulevard in Menifee to the intersection of McLaughlin Road and Goetz Road. The project includes construction and operation of the new water pipelines to improve operational reliability by providing additional conveyance and redundancy for existing transmission pipelines in the project area and to support operation of the proposed Goetz Road water storage tank.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
